### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Craig Wong on June 17, 2004.

The application has been amended as follows:

#### **IN THE CLAIMS**

Cancel claims **14-42** and **79-81**.

2. The following is an examiner's statement of reasons for allowance: Claims 71, 76, 77, 78 and 82 recite combinations of elements that were indicated as being allowable in independent form according to the previous Office Action, paper number 13. Therefore, since these combinations of elements are not taught or suggested by the prior art of record, they are allowable. It is noted that claim 71, although substantially amended to recite the subject matter set forth in previous claim 7, has been further amended to remove subject matter not necessary for patentability and to, in addition, correct a discrepancy between the subject matter in claim 7 and amended claim 1. Claims 14-42 are being canceled by this amendment as being directed to a withdrawn invention. Claims 76, 79 and 80 are duplicates of claims 81, 82 and 83, respectively. Accordingly, claims 79, 80 and 81 are being canceled.

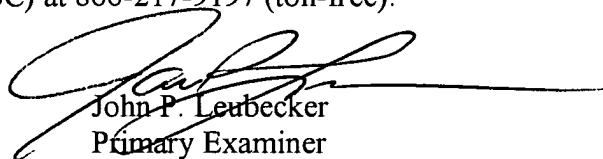

Art Unit: 3739

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
